

Personal Information				
Given Name	Ee-Eul	Surname	Kim	
Organization	Satrec Initiative			
Position	Senior Vice President	Nationality	Korean	
Field of Expertise	Earth observation satellite, Electro-optical payload			
Title of Presentation	International Cooperation for Space Capability Build-up			
Education				
<p>[1987~1990] BSc in Electrical/Electronics Eng., Korea Advanced Institute for Science & Technology (KAIST) [1990~1991] MSc in Aerospace Eng., University College London (UCL) [1991~1998] PhD in Physics, University College London (UCL)</p>				
Professional Experience				
<p>[1997~2000] Senior Research Engineer, Satellite Technology Research Center, KAIST [2000~2014] Director, Satrec Initiative [2015~] Senior Vice President, Satrec Initiative</p> <p>In KAIST, I was involved in the development of the KITSAT-3 camera system. KITSAT-3 was an innovative small satellite for Earth observation. I was one of founding members of Satrec Initiative in 2000. In Satrec Initiative, I was involved in various satellite development projects as a project manager, a systems engineer, or a payload engineer such as RazakSAT, DubaiSat-1, X-SAT, RASAT, KOMPSAT-3, DubaiSat-2, Deimos-2, TeLEOS-1, SpaceEye-X, etc. Since 2015, I have been leading overseas project development and supervising project execution in Satrec Initiative.</p>
