<p>Jun Dongol Hada is a development practitioner with more than 15 years' of experience in rural and urban development and planning in Nepal. She started her career as project architect in Nepal in 1995 soon after completing her degree in Bachelor of Science in Architecture. She was involved in the designs, preparing detail drawings and construction of buildings including church, auditorium, movie theatre, hotel and resort and residences.</p> <p>She worked in urban and rural development planning in Nepal after completing her Master's degree in urban planning. She worked with different urban development and management related projects of the United Nations Development Project in Nepal (UNDP), The World Bank (WB), and World Health Organization (WHO).</p> <p>She also worked with International Non-Government Organization (INGOs) including Care Nepal and Practical Action in Nepal working in the management programmes focused on infrastructure development in transport, renewable energy, urban water and sanitation, urban management, air-pollution issues.</p> <p>She is currently working with Swiss Agency for Development and Cooperation (SDC) in Nepal as a Sector Programme Officer, and is responsible for Transport Sector Programme Portfolio. She manages Swiss technical assistance programmes on transport sector in Nepal that involves building trail (foot) bridges, local roads and bridges to provide access to rural population.</p> <p>In all of these programmes, gender and social inclusion has been a key cross-cutting issue. She has been active in numerous national and international networks including Gender and Transport network (GATNET), Clean Air Asia Network (CAAN), International Forum for Rural Transport and Development (IFRTD), International Network of Women Engineers and Scientists (INWES), Asia Pacific national Network of INWES, WISE Nepal for the advocacy of mainstreaming gender and social inclusion in different sectors.</p>
